

# Wins Trip to Las Vegas

- Hope Star Photo

Sales Manager Steve Marlar of Hope Auto Co. was notified by Ford Motor Co. he had won a four day trip to Las Vegas as winner in a sales contest.

In fact because of a record breaking year at the Hope Auto in sales of 1966 models of cars and trucks other staff members have won trips also.

Owner Frank McLarty, a 9-day trip to Hawaii; Gen. Mgr. W.L. Tate a 7-day trip to Nassau in the Bahamas and Service Mgr. Andy Caldwell a 7 day trip to Miami and Biscayne Bay.

## Omar Bradley Takes Bride

By THE ASSOCIATED PRESS LOS ANGELES (AP) — Gen. Omar N. Bradley and his new bride fly to New York today for their honeymoon.

Bradley, 73, and Esther Dora Buhler, 44, a twice-divorced screenwriter, were married Monday in a five-minute ceremony at the San Diego, Calif., courthouse.

The former chairman of the Joint Chiefs of Staff and his wife have known each other for several years, according to friends. They said the new Mrs. Bradley has been working on a screenplay of the general's life.

Bradley is chairman of the board of Bulova Watch Co. His wife of 49 years died last December.

PAT SCHOOLEY

Pvt. Dennis "Pat" Schooley, son of Mr. and Mrs. Homer Schooley, 1517 S. Main in Hope, has been selected to attend Military Police school at Augusta, Georgia for 8 weeks training before he is permanently assigned for duty.

Pat recently completed Basic Training at Ft. Bragg, North Carolina, and is home on leave at the present time. He is a 1964 graduate of Hope High School.

## Rolvaag Is Victorious in Minnesota

By JOHN D. MCCLAIN Associated Press Writer Minnesota Gov. Karl F. Rolvaag, rejected for renomination by his own Democratic-Farmer-Labor party, won the chance on his own Tuesday to seek a second term in the Nov. 8 general election.

In another of Tuesday's 11 primary elections, Edward J. McCormack, a long-time challenger to the Kennedy clan, captured the Democratic nomination for governor of Massachusetts. He defeated Kenneth P. O'Donnell, a top aide to President John F. Kennedy.

Former House Speaker Joseph W. Martin, 81, was upset by a 35-year-old housewife and lawyer, Margaret M. Heckler, in his bid for Republican nomination to a 22nd term in another Massachusetts race. Martin was speaker during the 80th and 83rd Congresses and was Republican leader for 16 years before being toppled by Rep. Charles A. Halleck, R-Ind.

Some other races indicated popular support of President Johnson's Viet Nam policies and an apparent white backlash to open housing, the most controversial section in the administration's civil rights bill. But national issues generally were scarce in the campaigns.

Besides Minnesota and Massachusetts, other primaries were held in Arizona, Colorado, Maryland, New Hampshire, New Jersey, Rhode Island, Utah, Vermont and Wisconsin. Voters chose nominees for six governorships, nine Senate seats and 74 House seats.

Rolvaag, 53, stormed past his handicapped lieutenant governor, A. M. (Sandy) Keith, 37, who bucked Rolvaag in June to win the party's convention endorsement. The governor also seemed to be carrying his slate in three key races against Keith supporters.

Rolvaag will face Republican Harold Levander, 55, a South St. Paul lawyer, who swept past nominal opposition in the GOP primary.

Vice President Hubert H. Humphrey, a former Minnesota senator, took no active part in the primary campaign, although he backed Keith after the party nominated the lieutenant governor on the 20th ballot.

Sen. Edward M. Kennedy of Massachusetts, took no side publicly in the Bay State Democratic primary, but promised to support Tuesday's victor in November.

This means Kennedy will be working for McCormack, whom he defeated in a bitter battle for the Senate nomination in 1962, in his general election campaign against GOP incumbent John A. Volpe, who was unopposed. McCormack is the nephew of House Speaker John W. McCormack.

Former Massachusetts Gov. Endicott Peabody, trying for a political comeback, defeated Boston Mayor John F. Collins in the Democratic race for Senate nomination.

"Dog Nights"

Australian aborigines, who wear only loincloths, are able to sleep outside on the coldest nights by snuggling close to their dogs near a fire. An aborigine measures temperature in terms of the dogs he needs to keep warm. A chilly night is a four-dog night, frost on the ground means a six-dog night.

## Problems of Spacewalk Are Studied

By JIM STROTHMAN AP Aerospace Writer

CAPE KENNEDY, Fla. (AP) — Baffled by astronaut Richard F. Gordon Jr.'s tiring spacewalk experience, project officials today continued to search for ways to overcome man's seeming inability to work in the weightless ocean of space for long periods.

If they cannot, it might reduce the number of tasks astronauts can perform while on the moon. Astronauts also would need to work outside their spaceship to perform a space rescue, erect space stations or repair a broken satellite.

"We've got to have some more experience," said Dr. Charles Berry, chief astronaut physician, "and really get the details of each of these experiences and try and put them all together in some coherent story."

"I can say very honestly that there are some things here that we continue to not understand." "The basic problem appears to be that it is very, very hard work," agreed mission director William C. Schneider. "And, regardless of the suit, it is going to remain hard work."

Man has no basic stability in space, if he doesn't have something to latch on to, it's like lifting weights while treading water.

Using tethers to tie a working astronaut down "is absolutely necessary to cut this workload," Berry said.

Astronaut Edward H. White II, America's first space walker, said he was hampered by the stiff, 21-layer space suit.

"You're working against a pressurized bag, and you have to move the bag around when you make motions," the astronaut said. "It takes slow deliberate patience about what you are doing."

As the result of troubles encountered by White on Gemini 4 and other spacewalking astronauts on later flights, devices were installed on Gemini 11 to give Gordon better leverage — hand holds and overshoe-like footholds.

The astronaut never got to use them, however. They were located at the rear of Gemini 11 and the early part of his space walk kept him in the front, around the locked-on Agena target satellite.

"Quite obviously, we underestimated the amount of work," project planners conceded.

The chief physician also noted that the fact that Gordon perspires very freely may have been a factor. Sweat poured into his right eye as he labored outside Gemini 11, hampering his vision.

A similar problem cut short the space walk by Gemini 9 astronaut Eugene A. Cernan in June, when his faceplate fogged from his heavy breathing. Evaporating equipment was unable to keep up with the moisture created.

A PATRIOTIC START LOUISVILLE, Ky. (AP) — Jim Brite, trainer for University of Louisville athletic teams, can't escape his job — even at home.

Every evening his sons, James, 3, and Chris, 2, invite their parents to watch them play basketball in the basement.

The game can't start until the youngsters perform two rituals they've seen at Louisville games. First the boys strip down to what they call their "ball pants."

Then while they stand firmly at attention, the Brites must sing a quick version of "The Star Spangled Banner."

## Weather

Experiment Station report for 24 hours ending at 7 a.m. Wednesday — High 84, Low 64.

ARKANSAS — Partly cloudy to cloudy through Thursday with scattered showers and thundershowers in extreme south early tonight. Cooler in the north half tonight and over the state Thursday. Low tonight 52 northwest to 66 southeast. High Thursday 72 north to 82 south.

LOUISIANA — Clear to partly cloudy through Thursday. Widely scattered thundershowers Thursday and over the north portion tonight. Cooler in the north Thursday. Low tonight 64-70. High Thursday in the 80s.

## Accused Man Collapses in Court

SARASOTA, Fla. (AP) — Dr. Carl Coppolino, scheduled for trial Nov. 7 in the death of his first wife, was in a guarded hospital room today after collapsing in court.

Hospital officials said Coppolino's attorney had instructed that they withhold word on his condition but added he wasn't believed to be in great danger.

The 34-year-old author-doctor was rushed to the hospital after collapsing in Circuit Court Tuesday during a preliminary hearing to determine whether he should stand trial. Gasping and clutching his chest, he was carried to an ambulance. His second wife, Mary, was at his side.

Coppolino has said he has a heart condition. He was hospitalized the night of his arrest July 23 after complaining of chest pains, and again last month for the same reason.

His seizure came about 30 minutes after Marjorie Farber, testifying for the defense, told the court she and the slightly built doctor had been "intimate" and had taken several trips together in 1963, including one to Puerto Rico.

Mrs. Farber, 52, is the widow of William Farber, a retired Army colonel Coppolino is accused of killing in 1963 when he and his first wife were neighbors of the Farbers in New Jersey.

Mrs. Farber, an attractive woman with dark hair, also told the court she had heard Coppolino mention a drug which the state contends he used to kill his first wife, Dr. Carmela Coppolino, 32, at their Sarasota home in August 1965. The drug was once thought to be undetectable.

Judge Lynn N. Silvertooth recessed the hearing until tonight. He had completed the preliminary hearing, upholding the trial, and was listening to arguments on a fugitive warrant from New Jersey. The judge also is scheduled to hear a defense motion to release Coppolino on bail.

LIKE A LOT of other New Yorkers, Mayor John Lindsay was delighted to see the 141-day newspaper strike come to an end as the presses rolled at the plant of the World Journal Tribune.

## Dodgers Win to Maintain Torrid Pace

By MURRAY CHASS  
Associated Press Sports Writer

It could be the World Series for the Los Angeles Dodgers and City Hall for Lou Johnson all over again this year.

The two seem to go together, and the Dodgers couldn't be more pleased.

They maintained their 1½-game lead in the torrid National League pennant race Tuesday night by crushing the New York Mets 8-3 behind Johnson's slugging.

The left fielder clouted two homers and drove in four runs, surpassing last year's marks that helped direct him to City Hall in Los Angeles where he received a special citation for his unexpected part in the Dodgers' successful fight for the pennant.

Johnson was called up to the Dodgers, his 18th team in professional baseball, in an emergency last season to fill the left field spot suddenly left vacant when Tommy Davis broke his right ankle May 1.

The Dodgers didn't really expect much from Johnson, but he did more than most of their hitters in driving them to the Series.

He batted only .259, but many of his hits were clutch hits and he drove in 58 runs and tied Jim Lefebvre for the team lead in homers with 12.

"If it hadn't been for the job Johnson did, we might not be here today," Sandy Koufax said after Los Angeles won the pennant.

But this year Johnson is doing even better. His performance against the Mets raised his average to .269 and vaulted him ahead of his 1965 slugging totals. He now has socked 13 homers and driven in 61 runs.

He is second in both departments only to Lefebvre, who has belted 23 homers and knocked in 72 runs.

Los Angeles' two competitors also won Tuesday night, Pittsburgh remaining 1½ games back by walloping Houston 9-3 and San Francisco staying 2½ out with a 7-2 triumph over Philadelphia. In other games, St. Louis edged Cincinnati 3-2 and Atlanta trounced Chicago 10-2.

## Prothro Can't Figure Which They Are

By BOB MYERS  
Associated Press Sports Writer

LOS ANGELES (AP) — The time has come, says Coach Tommy Prothro of UCLA, to ascertain if the Bruins are boys or men.

The Celans open the 1966 season against Pittsburgh here Saturday night and Prothro and his aides must learn much about his last year champions — 7-2-1 in the Athletic Association of Western Universities and Rose Bowl conquerors of mighty Michigan State.

Prothro apparently is not concerned with his two aces on offense, Gary Beban, his brilliant option pass — run quarterback, and halfback Mel Farr, of whom Tommy says:

"He's the best halfback I've ever been close to."

So it is probably the rank and file membership on the squad that the coach is thinking about. It's nice, Prothro admits, to re-

## Picks Porks But Has Texas as Loser

By HAROLD CLAASSEN  
Associated Press Sports Writer

NEW YORK (AP) — The June bugs still are buzzing around the garden, but here it is the start of the football season. Here are this week's winners:

Louisiana State over South Carolina: When this one was scheduled, it was just an ordinary game but now that Paul Dietzel, onetime LSU coach is boss of the Carolinians, it has taken on the hue of a grudge match.

Southern California over Texas: Trojans patched all their holes with junior college transfers, some of whom are potential super stars. Texas defense built around Diron Talbert.

Michigan State over North Carolina State: Two-thirds of the Spartans' Rose Bowl squad returns, including Bob Apisa, the Hawaiian Hammer.

Nebraska over Texas Christian: Once again, Nebraska has everything. Tackle Bob Pickens is a svelte 274-pounder.

UCLA over Pittsburgh: The Panthers from the East have neither teeth nor claws while the Bruins have Gary Beban, who rewrote the book last year as a sophomore quarterback.

Arkansas over Oklahoma State: Oklahoma State will be strong on defense while the Porks are strong on offense — and offense.

Purdue over Ohio University: Bob Griese still directs the Boilermaker attack.

Georgia over Mississippi State: The Georgians missed the Southeastern Conference title by two plays last year. This year they will be even better.

Illinois over Southern Methodist: The Illini are rated one of the best in the Big Ten. Jerry Levas, a flanker for the Mustangs, rated one of the country's best sophomores.

Navy over Boston College: Both teams have giant lines, but Navy also has solved its quarterback problems in the person of John Cartwright.

Missouri over Minnesota: Graduation losses were less at Missouri.

Washington State over California: A squeaker.

play the stunning upset over Southern Cal that sent the Bruins to the Rose Bowl, and the 14-12 conquest of Michigan State.

But this is a new season. Forget the past.

Prothro coaches the shifting-T, with a moving quarterback. And Beban, as a 19-year-old sophomore, truly moved himself and the team.

Now 20, the sturdy 6-foot 130 pounder passed for 1,483 yards and nine touchdowns, and ran for 590 and 14 TDs.

Farr, a senior, is the second half of the Bruins' potent one-two scoring punch. He stands 6-foot-2, weighs 208 and has the strength to break tackles.

Give him a couple of yards, Prothro says, and Farr will go all the way. He rushed for 821 yards and gained 180 on passes last year.

Back after a year's absence due to a broken ankle is the opposite halfback, Cornell Champion. Much was expected of him a year ago. If he plays well, UCLA will be even more dangerous on the ground.

The pass reception department may be suspect since three of the top catchers graduated. They were Kurt Altenberg, Dick Wicher and Byron Nelson.

The Celans, are small, as

they were last year. The key men on defense are All-American guard John Richardson, 254 pounds and a real grid animal, and linebacker Dallas Grider, 212. Richardson is 6-foot-2 and Grider 5-foot-11. Both are seniors.

Prothro contends the team will have to play as it did last year. "Fanatical" is the way the drawing Prothro puts it.

## Victory Puts Tigers Back in 2nd Place

By RON RAPOPORT  
Associated Press Sports Writer

Jim Kaat, who leads the majors in home runs given up by a 23-game winner, has finally had cause to regret it.

Of course, there's only one other pitcher with 23 victories around — fellow name of Koufax — and Kaat, who had won eight games in a row despite opposition homers, was done in by a couple Tuesday and missed a golden opportunity to pass Sandy in most victories.

A three-run homer by Willie Horton and a solo by Bill Freehan gave Detroit just enough runs to post a 6-5 triumph over Minnesota and deny Kaat his 24th victory and ninth in a row.

In his last four outings, the Minnesota southpaw has surrendered six homers, but not till Tuesday did it seem to matter. The Twins always came back with at least enough runs to win, and often a lot more than enough.

They almost did it again Tuesday, too. Minnesota got three unearned runs in the second and, after Detroit had taken a 6-3 lead, Zoilo Versalles hit a home run to bring Minnesota within a run.

In all, Kaat has given up 22 home runs this season, as against 17 allowed by Koufax. Jim was nicked for a first-inning run by the Tigers and then retired 16 men in a row before Jake Wood singled in the sixth inning. Al Kaline then walked and Horton hit his 25th homer. Freehan hit his the following inning.

In other American League contests, Boston beat Chicago 10-1, Washington edged New York 3-2 and Kansas City outlasted Cleveland 3-1 in 15 innings. Baltimore and California were rained out.

In the National League, Pittsburgh beat Houston 9-3, Los Angeles took New York 8-3, San Francisco won over Philadelphia, 7-2, Atlanta crushed Chicago 10-2 and St. Louis edged Cincinnati 3-2.

The Detroit victory put the Tigers back in second place, 9½ games behind the Orioles, and dropped the Twins to third, 10 games out.

George Scott was the hero of the Boston rout, driving in four runs with a single and a double. Jim Lonborg gave up just six hits, including two doubles and a single.

Bob Saverine hit a two-run homer, boosting the Senators past the Yanks as Phil Ortega, 11-12, went the distance. Bobby Murcer drove in a run for the Yankees with a triple and scored on a single by Joe Peplone.

Kansas City and Cleveland were threatening to play just about forever until Roger Repoz' two-run homer in the 15th sent everybody home. Fred Whitfield's 25th homer had tied the game for Cleveland in the eighth.

BOULMETIS TO RETIRE  
CHERRY HILL, N.J. (AP) — It will have to be this fall or never if Sam Boumetis, president of the national Jockeys Guild, hopes to win the Garden State set for Nov. 12.

Boumetis plans to make this year his last as a jockey. In seven rides in the Garden State he has never finished in the money.

NEW YORK (AP) — Joe Frazier, the Olympic heavyweight champion who has been undefeated as a pro, has been made a 9-5 favorite over Argentina's Oscar Bonavena for their 10-round bout at Madison Square Garden, Sept. 21.

Steve Spurrer, the Florida quarterback is trapped back of the line of scrimmage which was located on the Mississippi 3-yard line. He throws the ball into the end zone where it hits Jim Benson one of his linemen.

The official should

1. Declare the pass incomplete.

2. Penalize Florida 15 yards from the previous spot with a loss of the down.

3. Penalize Mississippi the choice of Florida being penalized 15 yards from the previous spot with a loss of the down or elect the a fourth down.

Answer: No 3. Penal Mississippi the choice of Florida being penalized 15 yards from the previous spot with a loss of the down or elect the a fourth down.

Rule 7-3-1b

## WHICH ONE'S THE CAPTIVE AUDIENCE?

## Tigers Travel Fights Last Night Friday to Pine Bluff

By JAMES HAMILTON  
and JOSEPH WITHERSPOON

The Yerger Tigers will be traveling to Pine Bluff Friday, September 16, to play the Southeast Panthers.

The Panthers, holders of the AAA conference title last year, will indeed be a difficult task for the Tigers to tackle. But the Tigers feel that problems are only difficult if one doesn't have any confidence and the Tigers have plenty of confidence.

The Tigers also feel that their loss to the Merrill High Tigers of Pine Bluff last week was due only to the weakness of the offense not being able to get anything going. But in this week's practices they have been able to improve their offense and defense to the extent that they are very confident of being victorious Friday night as they take on the Panthers.

There will also be a spectator bus going on the trip to Pine Bluff Friday. Anyone wishing to go is asked to contact either Joe Ware or Miss Minnie McKillion. The Admission is \$1.50 for a round trip. The Tigers are asking for your support to carry them on to a victory.

Olympic Champ Is Favored

NEW YORK (AP) — Joe Frazier, the Olympic heavyweight champion who has been undefeated as a pro, has been made a 9-5 favorite over Argentina's Oscar Bonavena for their 10-round bout at Madison Square Garden, Sept. 21.

## Tony Roche--Next Aussie Court King?

By SANDY PADWE  
Newspaper Enterprise Assn.

NEW YORK — (NEA) — Tarcutta, some 280 miles southwest of Sydney, is a typical Australian country village with 300 people and, naturally, two tennis courts.

Until recently, it was best known for its nearby sheep and cattle ranches.

Now it is more famous for producing a left-handed tennis player named Tony Roche, who, according to the girls on the tennis circuit, is a perfect cross between Richard Harris and Tom Courtenay.

Australian tennis fans really don't care who Tony Roche resembles. But they do care about his future because his tennis future actually is Australia's.

With Roy Emerson and Fred Stolle ready to retire from the amateur game, it will be up to Roche and John Newcombe to maintain Australia's superiority around the world. They're well-prepared.

Tony's training started like that of most Australian youngsters — on the home town court.

"By the time I was 14 I had problems," Tony said. "The only person in the village who could give me a game was my father."

So once a week, Tony would stop pounding a tennis ball against the garage wall and journey 30 miles down the road to Wagga, population 25,000, for some competition and coaching.

By the time he was 15, he had more problems. Nobody in Wagga could give him much of a game either.

When he was 17, Tony moved to Sydney, population 2.3 million, and suddenly his problems changed.

The coaching was the best and so was the competition. But Tony managed to do well enough to rate a place on the Australian national team.

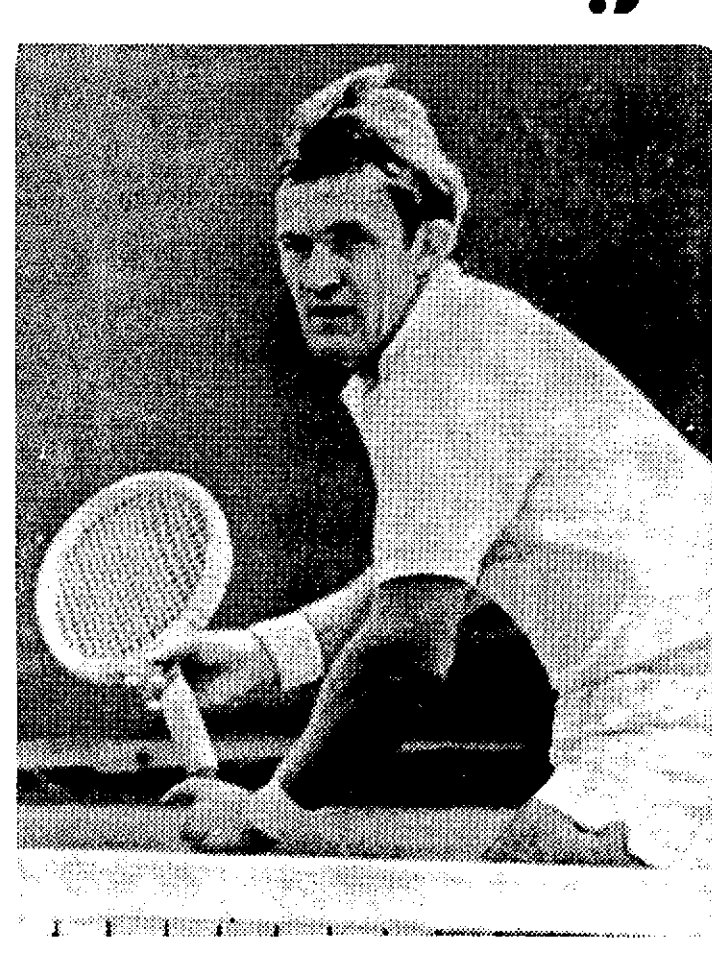

Since then his progress has been steady.

Now, he is 21 and has won his first major championships (French, Italian). Subsequently his prestige has grown and so has the pressure that automatically goes with being an Australian tennis star.

"I can feel the change," Tony said. "As soon as I started being seeded in the tournaments the pressure started to build. I felt I had to get through. Before that I just played and tried to do my best without worrying."

The pressure is only beginning for Tony Roche. He realizes it every time he looks across the locker room at Roy Emerson and Fred Stolle.

Emerson likes to joke about his age (30) and he likes to joke more about Stolle's age. Fred's 29, Emerson says.

TONY ROCHE  
"I can feel the change"

"but he looks 35."

And, Stolle says, there are times when he feels as though he's 35.

Now it is Tony Roche's turn. He is 21 and anxious.

Once it seems very long ago—Roy Emerson and Fred Stolle were 21 and anxious.

"Things picked up a little, it seemed like," Broyles said.

The defense worked against OSU plays and the offense rag plays against dummies.

The whippet was bred from the Italian greyhound and the terrier

probably miss the OSU game.

And, said Broyles, it was questionable whether the first-team tailback, Bruce Maxwell, would start. All five were injured prior to Tuesday's two-hour workout, which Broyles said looked a letter better than Monday's practice.

"Things picked up a little, it seemed like," Broyles said.

## Dirksen Says Rights Bill a Bad One

By HARRY KELLY  
WASHINGTON (AP) — Former President Harry S. Truman had this advice for skittish politicians: "If you can't stand the heat, get out of the kitchen." Senate Republican Leader Everett M. Dirksen, however, obviously doesn't mind the heat from the White House on the civil rights controversy. And he isn't trying to escape the kitchen.

"I don't know where they get the idea I scare on issues of this kind," Dirksen noted.

The Senate voted today on cloture — the means of shutting off debate and bringing the civil rights bill up for action. Without

Dirksen's support there appeared virtually no chance the administration could get the two-thirds vote needed for cloture.

Dirksen made it plain he wasn't dropping his opposition to the measure: "I know of nobody under the canopy of bright blue sky who could say anything to me that would make me change my mind."

Dirksen said he plans to give the chief address against the measure in advance of the late afternoon vote.

On the speech, Dirksen said, "My attacks are polite. They are devastating but polite. I kill you but you don't feel it."

Today's vote is on a cloture petition filed by Senate Democratic leader Mike Mansfield to end a shadow filibuster which began when sponsors presented a motion to take up the bill a week ago.

The filibuster never developed

This show the Hope High School band which took part in the opening of the Four States Fair and Rodeo at Texarkana on Monday.

fully because absenteeism forced the Senate to adjourn several times when leaders could not muster a quorum.

Most controversial portion of the House-passed bill would forbid discrimination in the sale or rental of about 40 per cent of the nation's housing. Single-family dwellings would not be included.

Provisions aimed at preventing discrimination in selection of juries also have been under some fire.

Dirksen's mood was such on the eve of the key vote that he even broke into a few bass notes of song as he sat on a table in the Senate press gallery, sipping coffee and giving a virtuoso performance of a patented

Dirksen news conference. President Johnson has conceded the bill is in serious trouble if Dirksen stands pat. "I am hopeful we can find some way to get his support," Johnson said.

Dirksen said he hasn't discussed the bill with the President.

Was there anything Johnson could tell him if they do discuss it, that would change his position?

"Exactly and precisely nothing," said Dirksen, "and you know how to spell nothing."

World's longest train tunnel bores under Italy's Lepontine Alps for 12.3 miles.

## Rooney Due for Rehearsals

LOS ANGELES (AP) — Actor Mickey Rooney was due at rehearsals in Los Angeles today after wedding a long-time friend, Margie Lane, at Las Vegas, Nev.

The marriage Saturday was the second for Miss Lane, a divorcee, and the sixth for Rooney. Both she and Rooney are 43. They have known each other for eight years.

Rooney's previous wives were Ava Gardner, Betty Jane Rase, Martha Vickers, Elaine Mahken and the late Barbara Thomas.

## Moon Visitors May Get Cool Treatment

By RONALD THOMPSON  
AP Aerospace Writer  
MANNED SPACE CENTER, Houston, Tex. (AP) — The first three Americans who take a roundtrip voyage to the moon will be treated more like they had the plague, than as heroes of the day—at least for a few weeks.

There'll be no tickertape parades, handshakes from the President or even hugs and kisses from their families until the U.S. Public Health Service makes sure the cosmic travelers didn't bring home some strange lunar varmint.

Some scientific circles have long expressed fears that men who explore the universe might unknowingly come in contact with harmful organisms that could thrive on our planet. With this possibility in mind, however remote, National Aeronautics and Space Administration plans take no chances.

The astronauts, their capsule and the 60 pounds of priceless moon rocks they are assigned to collect and bring back will be under strict quarantine for about three weeks. Only a few technicians and doctors will be permitted near them, then only after special precautions.

Designed for this purpose, an \$8.1-million Lunar Receiving Laboratory, to include bunks for the spacemen and party, is now under construction at the Manned Spacecraft Center. It is due to be finished by late next year, in time to support optimistic hopes the first lunar voyage might be attempted in 1968.

Here, NASA, the Public Health Service and the Atomic

Energy Commission will team to decide when an all-clear can be declared.

A 50-foot-deep basement with 3-foot concrete walls has been built for the AEC radiation studies on men and machine.

This cautious association with the moon crew under any other circumstances might seem downright impolite, and begins the minute the spaceship hits the water, home from an eight-day journey.

## Congress New Tends to Creep Along

WASHINGTON (AP) — This year Congress had a creepy feeling, and it's still creeping. It was different last year. That was the up-and-at-'em year.

The Democrats, fresh from their election triumphs in November 1964, ran the show in 1965 with their overwhelming majorities in both House and Senate. President Johnson called Congress' performance last year fabulous.

What it did was bound to change the social, economic and political life of the nation. It turned out legislation in a torrent, passing 86 major administration bills, including medicare, voting rights, aid to education.

Johnson's Great Society programs were off to a stunning start. Last year's was probably the most productive single session of Congress in history.

After such a deluge it was natural that Johnson this year wouldn't drown Congress in quite as big a flood of proposals as in 1965. And he hasn't.

But it would also seem natural that such a peppy Congress would still work with a rush, particularly since this is another election year with all 435 House seats and 35 Senate seats at stake. But it hasn't.

It has dawdled all year, so much so that there's a good chance now it will have to quit temporarily in mid-October, so members can go home and poll-tick for the November elections, and then come back for a lame-duck session.

(That session, since it would still be the present Congress, would include men defeated in November but none of the newly elected who can't take their seats until next year.)

But a lot of the members — starting perhaps last June — weren't waiting for mid-October to go home and try to round up

# Kiwanis Meet Speaker

— Henry Haynes photo with Star camera

Frank White of Little Rock, representing the firm of Merrill, Lynch, Pierce, Fenner and Smith, brought the Hope Kiwanis club a program Tuesday on stocks, bonds, and a review of the financial situation and economy of the United States.

Recent slumps in the stock market, Mr. White pointed out, has been the result of a lack of confidence of the public, and not the economy which he said had been booming with all-time high yields in many fields of business.

Al Graves arranged the program. Guests included Charles Greenlee, Ron Soreson, George Cabiness, Robert Peterson was introduced as a new member.

votes. It's happening right now. Monday in the House on a roll-call vote only 250 of the 435 members showed up. This concern about getting re-elected, and the work it involves, explains in part the slow pace of the present Congress. But not all of it.

Johnson has lost much of his magic control over Congress, the kind he had in 1965 after his huge victory over Sen. Barry Goldwater in 1964 had carried a lot of Democrats to victory with him.

At a time when Johnson's own popularity with the public is slipping, according to the polls, it has slipped in Congress, too, at least to the extent that the members are no longer so eager to say "yes, sir," when Johnson speaks.

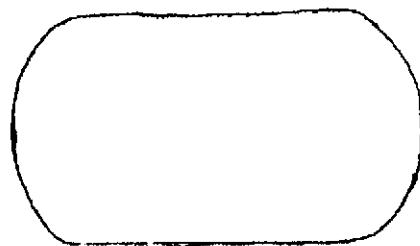

One veteran observer of the House remarked: "A lot of these guys this year are not so anxious to have their vote, yes or no, on a piece of legislation because that only means that much more explaining to the folks back home."

At the same time Johnson's leadership hasn't been so concentrated as it was in 1965. He has to spend a lot more time with the war in Viet Nam.

## APPLICATION for MEDICAL INFORMATION TAG

TO: ARKANSAS STATE DEPARTMENT of HEALTH  
State Health Building  
Little Rock, Arkansas 72201

FROM: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

# UFO: Who's Kidding Whom?

By TOM TIEDE  
Newspaper Enterprise Assn.

NEW YORK — (NEA) — When Andrew Sinatra was one year old he had an operation performed on the side of his neck and, unfortunately, died during the surgery.

He isn't bitter. On the contrary.

It was a wonderful experience, he grins. "As they were getting ready to bury me I suddenly came back to

THIS SAUCER, OR WHATEVER, was snapped in 1957 as it hovered over Holloman Air Development Center at Alamogordo, N.M.

planet—Nova—blew up. Now they are preparing defenses for an expected invasion from some former enemies.

"These people use flying saucers as part of their defense. The ships are made of a metallic substance that is highly pliable. When it punctures, it seals itself. They all run on solar energy. It is a very complicated process."

Sinatra, of course, knows first hand.

"I've ridden in lots of them."

Actually the barber doesn't ride in the craft himself. "Only my spirit does," he explains. "I can transmit my spirit wherever I want—back in time, to another planet, or inside the earth—by means of astral projection. It is a very complicated process."

For such trips, Sinatra uses a head apparatus which looks suspiciously like old coat hangers coated with tin foil. It is a deadly piece of equipment, according to the owner.

"I'd hate to think of this headband in the wrong hands," he says grimly. "It's all I can do to control it myself. Whenever I put it on, an earthquake or a tidal wave takes place. It is a very complicated process."

Fortunately, Sinatra himself has no intention of using the headgear or his Martian powers for anything other than good. As he puts it, he has dedicated his second life to the betterment of man through "lectures, radio and television appearances, consultations, solar therapy, tape recordings and cutting hair."

But if he wanted it to, the world would shake. He can predict the future, make men invisible, control governments or, if necessary, destroy the entire planet.

How?

"Well," he confesses, "it's a very complicated process."

NEW YORK—(NEA)—Scientific evidence against the existence of flying saucers is so overwhelming that anyone who persists in the belief that they are real is usually assumed to have a screw loose somewhere.

The assumption is unfair. Wild as the stories and theories may seem, increasing numbers of solid citizens are quietly insisting that "something unusual is happening."

August Roberts is an example. He's a 46-year-old mechanic from Wayne, N.J., who recently came under a unanimity of raised eyebrows after spotting a saucer near his home.

"I saw it," he sighs. "I don't care what anybody says. I saw it."

What Roberts saw, according to official Air Force authority, was a "natural phenomenon," the same kind which last year accounted for 870 of the 886 reports of sightings and which over the past 19 years has accounted for nearly 95 per cent of all Unidentified Flying Objects.

It could, for example, have

been a reflection of automobile headlights off cloud layers, or the flight of a large bird, or swamp gas, or high altitude balloons, or an optical mirage, or a meteor, or even another of the firefly insects which have previously accounted for reports of strangely glowing and slowly moving objects.

But according to Roberts it was none of these.

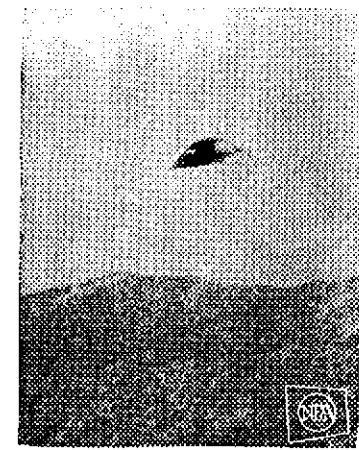

Says he: "Whatever it was, it wasn't natural."

Roberts saw his object at night near a reservoir. He says it was 50 to 100 feet in diameter, round-shaped, glowing with a pulsating light and fashioned with a thin metal rim which spun rapidly in a counterclockwise direction.

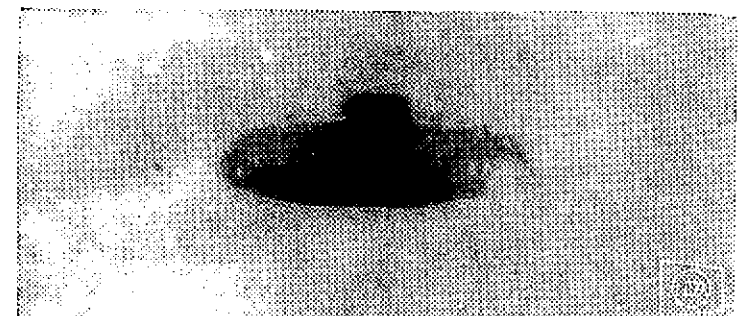

"As it moved and spun faster," he remembers, "the thing changed colors several times, from deep orange to

thing more literally and physically down to earth.

But whatever their thoughts—wild or reasonable—the Saucerian Society is

GUY MARQUAND snapped this at Riverside, Calif.

THIS THING was seen recently over Wall Township, N.J.

brownish reds. Then it rose quickly and flew away."

Roberts' report gets the official giggle because he has no proof; and this, of course, has been the bane of the Saucerian Society since official sightings began in 1947.

Pictures have been taken, but most have turned out to be hoaxes (one common trick has been to paint old straw hats silver, toss them into the air and snap away). The nation's incredibly sensitive radar network has yet to turn up anything of undetermined origin. And, in 19 years of government probing, not a single shred of evidence has been uncovered, as the Air Force says, "to support any unnatural theories."

Still this rebuff hardly weakens the UFO cult. In fact most of them believe the government is "hiding the

not entirely made up of dim-wits. There are thousands of legitimate devotees and millions more who keep an open mind on the subject. Call them imaginative or impressionable, but the fact is they have an almost religious belief they are right.

August Roberts says it for the lot:

"Something is out there. I tell you. I saw it with my own eyes."

PASSING WITH YELLOW LINE  
FRANKFORT, Ky. (AP) — Kentucky has decided to allow passing on three-lane highways even when the yellow line is on the driver's lane. The aim is to speed often-clogged traffic in the eastern mountains.

## CHINA IN ARMS

Its chief, Defense Minister Lin Biao, now stands second only to Mao Tse-tung in Red China's hierarchy. Along thousands of border miles, it stands in battle array and, Peking warns, "fully prepared for any eventuality." It is guided by Mao's dictum that "man, not weapons" determines ultimate victory. Here are glimpses, from official sources, of the force whose ominous shadow falls across much of Asia—Viet Nam, India, the Soviet Union—the men and weapons of China's three-million-man People's Liberation Army.

Short of mechanized equipment, the PLA turns to manpower to move equipment through mud and drenching rain.

Pilots in training rush to their Mig jets. Chilled relations with the Soviet Union have deprived Red China of the latest models.

The bugle, well-remembered from the Korean war, is ever present, even during a training operation river crossing.

## DIPLOMACY'S HOT SEAT

It may well be the world's toughest job. The requirements are many, men meeting them few. The man chosen must have the unanimous backing of great powers deeply divided on a host of world issues. He must think and act for the world, not one nation or a group. He must chart a course among conflicting interests of great nations and ride herd on a mob of new states more interested in inflammatory propaganda than constructive policy. In the two decades since the founding of the United Nations, three men have held the post. Now, with the decision of U Thant not to seek a new term, the world organization must find a new secretary general.

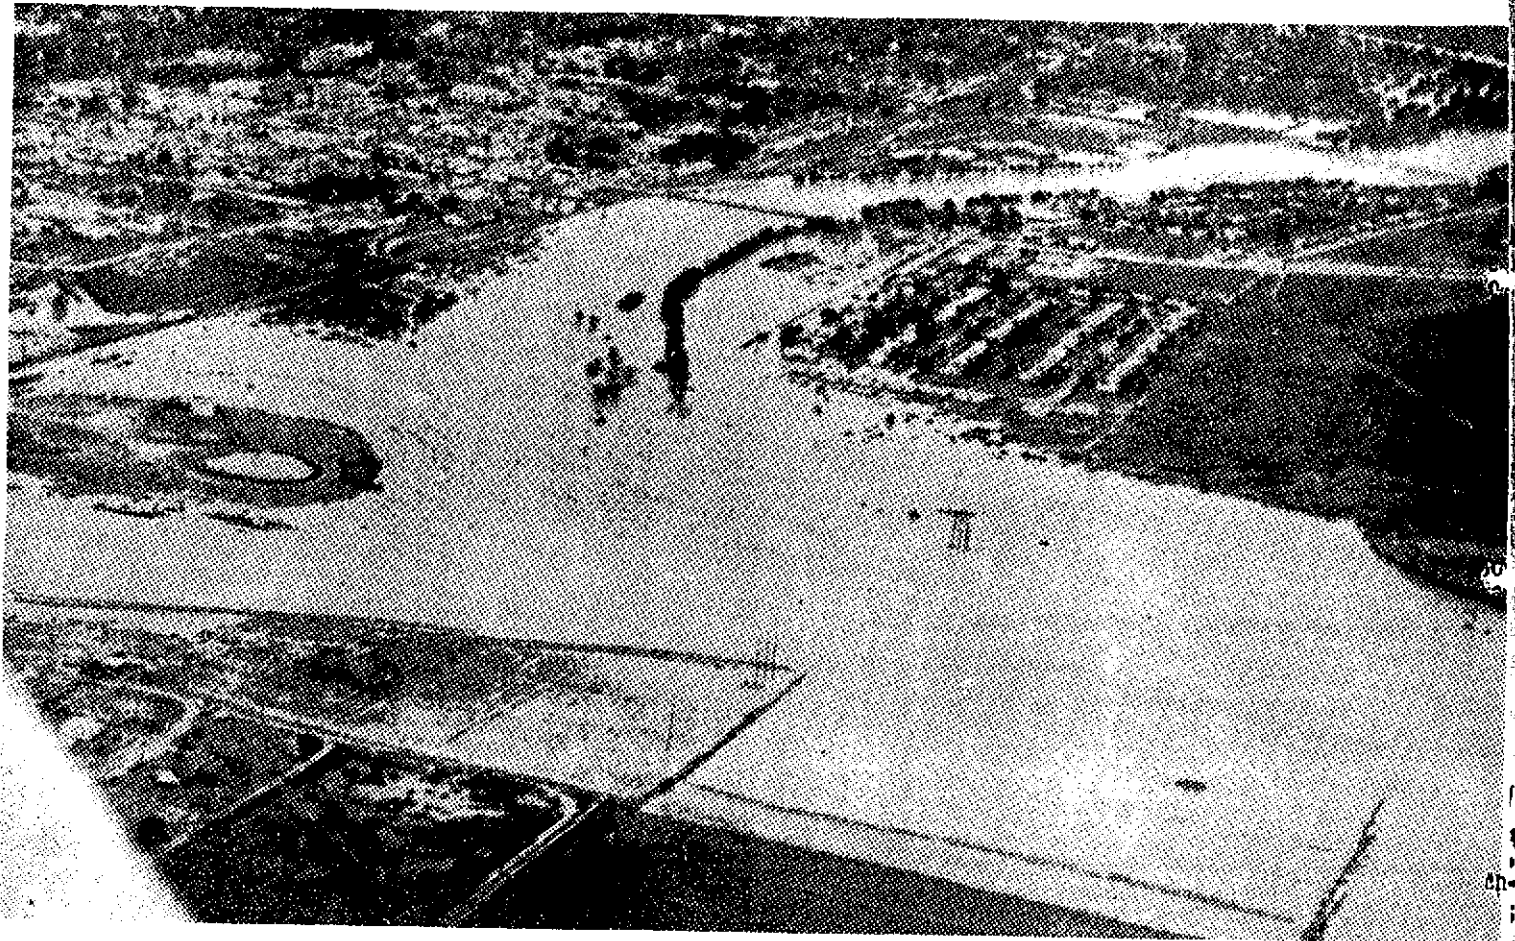

TRYGVE LIE, Norwegian socialist, was the first. His election in 1946 set the precedent of a five-year term. He resigned in 1952 under Soviet pressure because of his stand against Red Chinese involvement in the Korean war.

DAG HAMMARSKJÖLD, Swedish aristocrat and career diplomat, was next. Elected to a second term, he soon ran into a Soviet bloc boycott of his policies involving U.N. peace-keeping forces. He died in an African plane crash in 1961.

U THANT, Burma's U.N. ambassador, followed. In leaving, he regretted that "universality of membership" still had not been achieved. Red China's absence prevents, he believes, meaningful discussion of peace and disarmament.

FLOODWATERS spreading over thousands of square miles of southeastern New Mexico and west Texas threatened to surround Carlsbad, N. Mex., above. High water cut all but one road leading into town, and Carlsbad Caverns National Park was isolated. (NEA Telephoto)

### BERRY'S WORLD

Yeah, yeah, I'm his leader—what ya want?

facts" and continuing denials only reaffirm their dedication. Roberts himself now asserts: "The Air Force is lying."

But why?

"It may be some new energy has been discovered," he says.

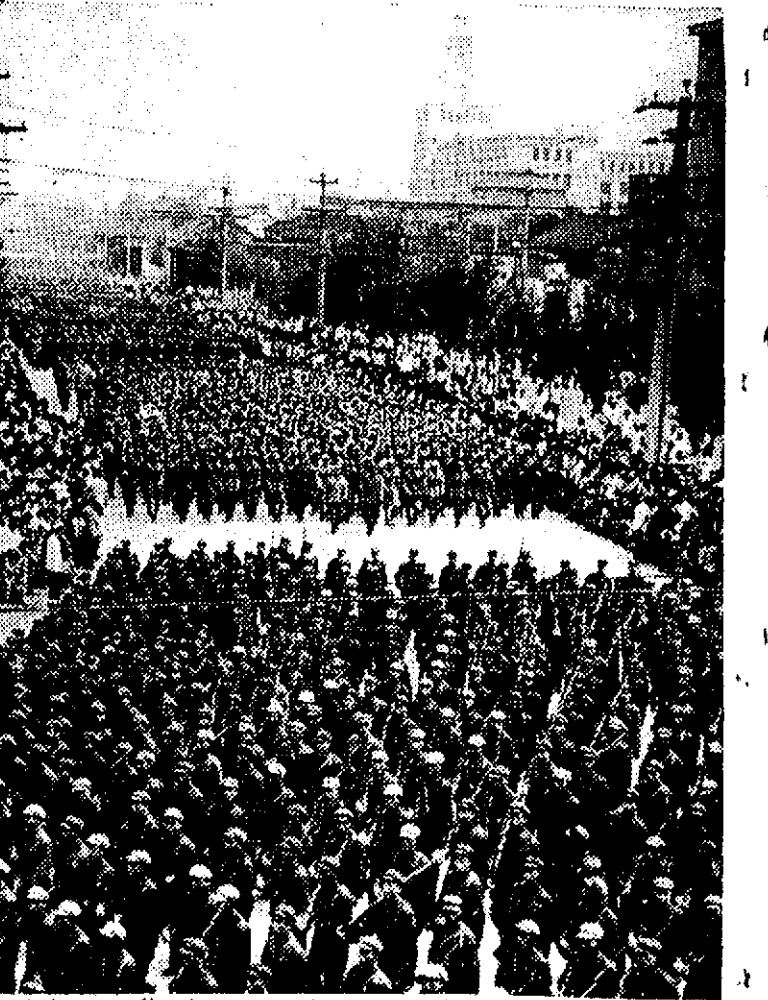

New energy? Something revolutionary?

So what?

Mao's government doesn't want the public to know about it. Let's say it's a new type of fuel which would run a car for 50 years on a single tankful. If the secret got out the petroleum industry would collapse and with it the entire economic framework.

That's the kind of talk which raises much of the public to tell its collective doubts but the idea is at least not as outlandish as earth-shaking which reported. As are being watched by intelligent beings.

Moreover, this thinking indicates that saucer sighters are moving away from "little green men" towards some-

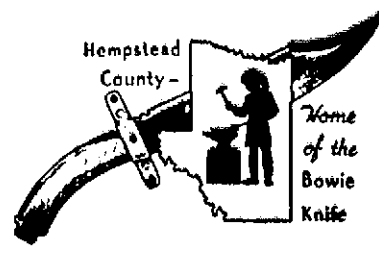

A human flood, army units march through the streets of Sian, Shensi province, to rally support for the Communist cause in Viet Nam.

An anti-aircraft unit fills the night sky with flame. Quality and quantity of Red Chinese air defense equipment remains a question.

## With Other Editors Trite But True

Review of a dozen or so commencement talks delivered by important, distinguished persons in the last few weeks reveals that the gist of their advice to the graduates is about as follows:

— Whatever you do, at work or at play, give it everything you have. You don't win success by half-hearted effort.

— While ability is of course all important, it rarely is enough without dependability, loyalty and dedication.

— While it is true that things are pretty well messed up all over the world, there still is unlimited opportunity for achievement and success; in fact, the world is crying for leadership and new ideas.

There is nothing new or startling in this advice and cynics may write it off as trite and corny. But it does have one thing going for it. It is true. — Logan (W. Va.) Banner

## Jealous?

It is not hard to see why some Northern senators want to repeal Section 14-B of the Taft-Hartley Act. The National Cotton Council reports that manufacturing jobs in 19 right to work states increased 13 per cent while they increased only 8 per cent in all the others.

Florida, Nevada and Arizona, which all have right to work laws, led the nation on a per capita basis in creating new industrial jobs. Some Northern senators think they can put a stop to that sort of thing by federal legislation banning nonunion labor. — Orlando (Fla.) Sentinel.

## The Math Bowl

Maybe it could have been called the "Math Bowl." Eighty-four teams, with 784 students from 34 Southern states, were locked in serious competition during the event in Birmingham. The team that won — by showing a superior ability in mathematics — was from Lanier Senior High School in Macon.

Although there was no preceding pep rally, no halftime show and no roar from 50,000 fans, we suspect this team is one that actually will make much more of a mark than those that play in the stadiums. We're like to see more of that kind of competition. — Atlanta (Ga.) Journal

## Heavy Damage in Accidents Early Today

State Policeman Guy Downing investigated two accidents this morning, one resulting in heavy property damage and one charge was filed.

At 6:25 a.m., at Highway 355 and Highway 67 at Fulton, an auto driven by Danny Joe Roberts of Mesquite, Texas attempted to pass in a no passing zone, crashed into a Bruce Kennedy gravel truck driven by James Leo Ratliff of Texarkana and careened off into Logan's service station, smashing a barrel of oil.

The Roberts car was a total loss. Roberts was charged with improper passing. Nobody was injured.

Near Oaks Cafe on Highway 67 at 8:10 a.m. Stiemans J. Oliver of Austin, Texas had stopped behind a school bus taking on students. Another car driven by Vess Embree of Beaver Dam, Ky., hit the rear of the Oliver vehicles, light damage resulted. Mrs. Blanche Floyce, passenger in the Kentucky car, sustained a slight facial cut.

## New Cases Suspected

LITTLE ROCK (AP) — The state Health Department said that four new suspected cases of encephalitis were reported Tuesday, bringing to 18 the number of suspected cases in Arkansas.

The new cases were from Siom Springs, Blytheville, North Little Rock and White County, the department said. Other suspected cases have been reported from Ashley, Ouachita, Pulaske and Union counties.

None of the cases has been confirmed as encephalitis—also known as sleeping sickness.

## Gemini Goes to New High and Faster

CAPE KENNEDY, Fla. (AP) — Shouting "We're on top of the world," the Gemini 11 astronauts today soared higher and faster than man has ever flown and Richard F. Gordon Jr. later poked the upper half of his body into space to photograph the stars.

"I tell you, you can't believe it!" command pilot Charles Conrad Jr. exclaimed as Gemini 11 rode the power of an Agena rocket 850 miles above the earth over eastern Australia. "Utterly fantastic . . . the world is round."

After reaching the high outpost twice, the astronauts returned to their original path, which ranged from 180 to 190 miles high.

At 8:49 a.m. (EST) Gordon opened his hatch and stood in his seat as Gemini 11 passed high over the Indian Ocean.

For 2 hours, 20 minutes he was to snap scientific pictures of relatively young stars.

Because he only had to stand there, the workload was much less than that which overtaxed Gordon during his space walk Tuesday. Within minutes Tuesday he was breathing and perspiring heavily. His right eye became blinded with sweat and he had to scurry back to the safety of the cabin.

During the stand-up exercise, Gordon was tethered to the inside of the cabin by four lines—three of them for oxygen, communications and biomedical instrumentation. The fourth was a restraint tether, shorter than the others to prevent the three key lines from breaking.

Gordon aimed an ultraviolet camera, mounted on the side of the craft, at selected stars.

"We're on top of the world," Conrad reported as they reached the peak of the roller-coaster orbital path.

"Just out of my left window, I can see all the way around to the very end, with the horizon all around," he said.

The record-breaking journey started with a massive jolt of power from the Agena at 3:12 a.m. EDT.

"It's going!" Conrad said. "It's really going!"

"Have a good ride," the ground controller told him.

After the first kick of speed the Agena gave Gemini 11 a record as the slowest-orbiting spacecraft. It fell from the usual 17,500 miles an hour to 15,402 before reaching the peak of its outward trip.

Then Gemini started downhill. It raced faster and faster until it was going at 17,884 miles an hour, faster than man has ever gone before.

The ground controller, asking for instrument readings on radiation as the crew zippered through a fringe of the Van Allen belt, said:

"Sounds like it's safer up there than a chest X-ray."

"Affirmative," answered Conrad.

## District Told No Annexation

LITTLE ROCK (AP)—Annexation by a school district of part of another district requires the approval of the school boards or patrons on oath in districts, the attorney general's office said Tuesday.

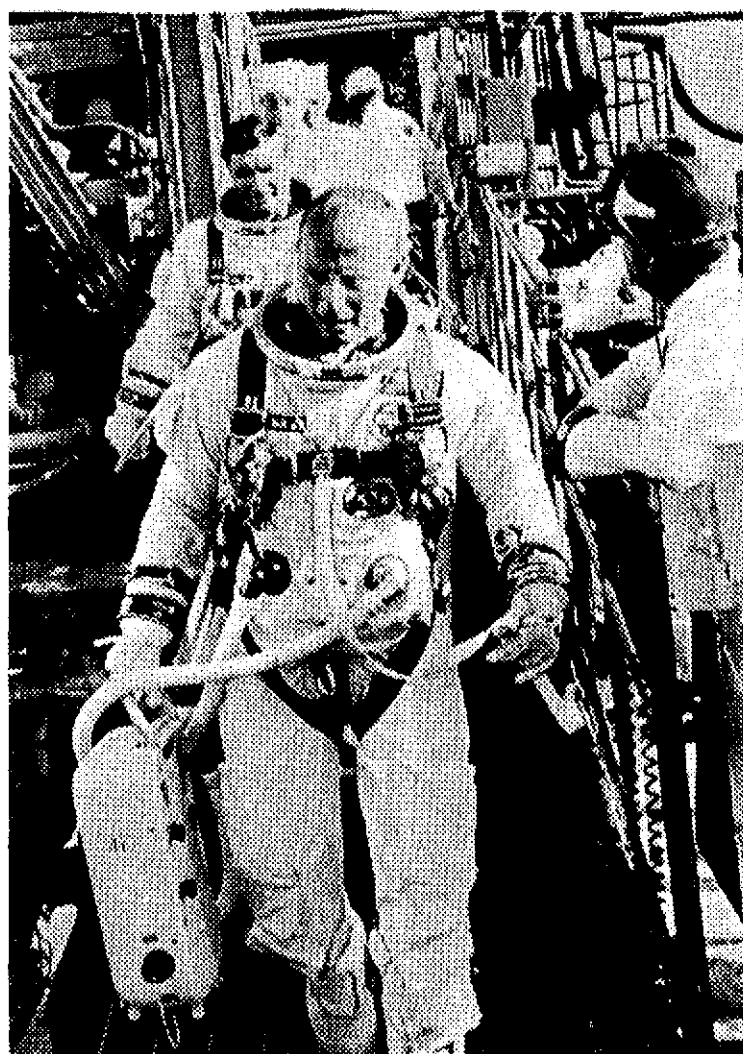

Lance Henshaw, assistant attorney general, told Benton Sup't. Howard Perrin that the Benton District could not annex 160 acres from the Bryant District even though all of the Bryant patrons in the tract favor the move.

Perrin said parents in the disputed tract had to send their children six miles to Bryant schools, although Benton had an elementary school about a half-mile away.

## Youth Killed at Texarkana

TEXARKANA, Ark. (AP) — Raymond McCrory, 5, son of Jimmy McCrory of Shreveport, La., was killed Tuesday when his father's car and another car collided head-on on U.S. 67 about 12 miles north of here.

McCrory, 23, and the other driver, Charles Cohn, 51, of Corinth, Miss., were injured, State Police said.

(NEA Telephoto)  
GEMINI-11 astronauts Pete Conrad, front, and Dick Gordon, shown here in front of their Titan-Gemini rocket at Cape Kennedy, finally got into orbit Sept. 12.

## Pentagon Admits That Millions of Dollars in Supplies Are Stolen

WASHINGTON (AP) — Pentagon officials estimated today millions of dollars in building supplies sent to Viet Nam have been stolen outright, damaged in hasty unloading operations or ruined by exposure due to lack of storage facilities.

"A few million dollars worth stolen? Hell, yes," declared a top officer connected with the Viet Nam construction program.

"Well, say below \$10 million — maybe under \$5 million," he added. "We really don't have a fix on it yet."

But a more definite idea of the loss may emerge in November, he said, when civilian contractors complete an inventory now under way at three major depots and 13 warehouses in Viet Nam.

This will be the first accounting of what materials the contractor has used and has in stock — eight months after a gargantuan stream of supplies began pouring into Southeast Asia for U.S. military facilities.

Officials say the delay in getting records up to date could not be avoided because of the crash mobilization undertaken by the private consortium known as RMK-BRJ, now performing nearly \$600 million of work in South Viet Nam.

RMK-BRJ stands for Raymond International of New York; Morris-Knudsen of Boise, Idaho; Brown & Root of Houston, Tex., and J.A. Jones Construction Co. of Charlotte, N.C.

Building the priority installations — temporary quarters for troops, air bases for warplanes, ports for receiving supplies — came first. Bookkeeping by necessity was done if and when there was time.

Vast amounts of lumber, steel and cement were ordered late last year and began arriving in Viet Nam in January. But there were virtually no ports to receive the materials and, further, no place to store them.

Barges dumped the goods onto beaches. From there they were hauled or dragged to cleared areas for open storage while warehouses were built.

## Revolutionary Tactics Cited

LITTLE ROCK (AP) — Lt. Col. Carl Miller of the Arkansas State Police said that Atlanta's race riots indicate that national leaders should take positive action to curb revolutionary tactics of professional provocateurs.

Miller addressed Arkansas police chiefs Tuesday at a workshop sponsored by the Arkansas Municipal League. He warned that the security of all communities has never been in greater jeopardy and said if street riots can't be quelled and rioters cannot accept the right of structures of law and order, we face chaos and anarchy.

## Russia Admits Holding Peace Corps Worker

By JOHN WYLAND  
MOSCOW (AP) — The Foreign Ministry announced today that Thomas R. Dawson, an American Peace Corps member stationed in Iran, had been detained for violating the Soviet border. It added that an investigation is under way.

The announcement confirmed that Dawson was arrested along the Soviet-Iranian border, but gave no other information. Nor did the ministry take note of a U.S. Embassy request Tuesday for the release of Dawson, 24, of Annapolis, Md.

A spokesman for the U.S. Embassy said Dawson was picked up by Soviet border guards Sunday while walking near Astara on the Caspian Sea.

"Dawson was headed toward the border in all innocence," an embassy spokesman said. "We are undertaking appropriate measures to seek his release."

The Foreign Ministry ordered the expulsion of Donald R. Lesh, second secretary of the U.S. Embassy, "for activities incompatible with his diplomatic status." It did not elaborate.

The action was obviously retaliation for the U.S. expulsion Sept. 7 of Valentin A. Revn, third secretary of the Soviet Embassy in Washington. Revn was accused of trying to obtain classified information.

In another Moscow development, Harold M. Koch, a former Roman Catholic priest from Chicago who defected to the Soviet Union, has refused to speak to anyone from the U.S. Embassy, an embassy spokesman reported.

The embassy wanted to learn if his defection was voluntary. In a television interview Tuesday, Koch said he had decided to seek asylum in the Soviet Union because here he would be free to speak out in protest to U.S. involvement in the war in Viet Nam.

A U.S. embassy spokesman said he could not comment what steps will be taken by the embassy next to obtain the release of Dawson.

## City Asked to Slow School Traffic

The City Board of Directors last night passed three ordinances, one rezoning a block in the Haynes addition from 1 to 2; another to close an alley in Block 24 and another amends an ordinance on the building code.

A petition presented by E. P. Young Jr. and Floyd Crank to close 17 street from Main to Elm, was turned over to the planning commission for study.

Bob Moers appealed to the Directors to please do something about the school traffic at Hope High which he termed as "Dangerous" not only to youths but even to property in the area. He asked the city to do something to slow down the traffic and to correct the situation.

## Says Change Would Be Only in Machines

LITTLE ROCK (AP)—Election of Winthrop Rockefeller would mean only the swapping of political machines, Mrs. Jim Johnson told a meeting of the Women Members of the Democratic Party here Tuesday night.

She is the wife of the Democratic candidate for governor, Jim Johnson.

Under the administration of Gov. Orval Faubus, Arkansas has been run by "wealthy, power-seeking machine-makers," she said. Under Rockefeller, it would be just as bad, she said, since his administration would be run by a "new, rich power structure with headquarters in New York."

She called for a return to Christian principles in government, with emphasis on the religious faith of she and her husband.

About 100 women attended the meeting.

## Violence Continues at Grenada, Judge Orders Protection

By THE ASSOCIATED PRESS  
Racial violence spawned by school integration continues to flare in Grenada, Miss., amidst emergency federal action aimed at ending bloodshed and guarding Negro children.

U.S. Dist. Judge Claude Clayton issued a temporary restraining order Tuesday night directed at segregationist whites. It had been sought by the Justice Department.

As Clayton issued his order to force Grenada officials to protect Negro school children, Negroes marched into the town square.

Heavily armed state highway patrolmen dispersed a crowd of jeering, rock-throwing whites who attempted to break up the demonstration.

After a wedge of troopers, backed by state game wardens, moved in to protect the marchers, the violence subsided.

Clayton set a hearing for Thursday for a more permanent order in the matter.

Grenada erupted into violence Monday when segregationists beat Negro children and newsmen.

In Chalmette, La., white hecklers shouted and flung rocks as Negro pupils left a newly integrated high school. The taunters also tried to overturn a car at the St. Bernard High School.

Plans were made to segregate the school by sexes today, a procedure already adopted at Chalmette High, another school in the parish.

White students began trooping out of St. Bernard High Tuesday when 62 Negroes arrived to attend classes.

In Bogalusa, La., a night protest march in defiance of the city's ban against such demonstrations was called off shortly after Mayor Jesse Cutrer warned the Negroes his police department would break it up.

Cancellation of the march was announced at a rally where Lincoln Lynch, associate national director of the Congress of Racial Equality, told about 150 Negroes they should use "any means they have to obtain black power."

The march had been called to protest harassment of Negro pupils at Bogalusa Junior High School.

Police carefully watched the area outside the school where whites and Negroes confronted each other with shotguns, pistols and other weapons Monday.

In Atlanta, Ga., a white man, William Haygood James, 42, was charged with murder in the slaying of Negro teen-ager — a shooting which touched off three nights of violence.

James was bound over to the Fulton County grand jury and held without bond. The grand jury Tuesday reduced the charge against Stokely Carmichael, head of the militant Student Nonviolent Coordinating Committee.

Carmichael had been charged originally with "incite to insurrection," a felony, but the new charge, taking part in a riot, is a misdemeanor. His arrest followed an outbreak in a Negro neighborhood.

## All Around Town

By The Star Staff

Dick Willis, Vince Massanelli and Harry Ray McMahon have entered their sophomore year at Southern State. . . Dick and Vince left Sunday for Magnolia while Harry Ray had gone earlier for football practice.

In this column recently the Murfreesboro assistant coach was listed as John Ross Allen and it should have been John Allen Ross.

F. C. Crow, local attorney, who has been working in the Boy Scout movement since 1929, has been chosen for the second consecutive year to serve on the National Council, the highest governing body of the Scout organization. . . In 1966 the National Council met in Dallas and in 1967 it is to meet in Pittsburgh, Pa.

Arkansas' District 4 Tree Farm Committee will hold its third quarter meeting at Jodi's restaurant in Nashville on Sep-

## AP News Digest

GEMINI 11  
The Gemini astronauts use the Agena rocket to seek a height record in the first move of a space triple play.

Gemini officials continue to seek ways to overcome man's seeming inability to work in weightless space.

VIET NAM  
A Viet Cong demolition team storms into a motor pool in Saigon, captures an American soldier and destroys 52 trucks.

U. Dieter Dengler, the first American pilot to escape from the Communists, tells how he survived.

RACIAL-CIVIL RIGHTS  
A federal judge orders protection for Negro pupils attending desegregated schools in Grenada, Miss., where white hecklers attack Negro marchers.

Sen. Everett M. Dirksen plans an attack on the civil rights bill as the Senate prepares to vote on a cloture motion.

WASHINGTON  
The Republicans plan a budget they say will show how President Johnson can cut spending by \$4.7 billion. Food prices rise.

NATIONAL  
Minnesota Gov. Karl Rolvaag and Edward J. McCormack of Massachusetts win as 11 states vote in primaries Tuesday.

The president of American Motors says that the government decision that his financially troubled firm is a small business should help. He denies the move is a subsidy.

The Fischer quintuplets are talkative children. They are three years old today.

## Investigation of Pulaski EOA Agency

LITTLE ROCK (AP) — Two civil rights leaders say they have asked the director of the national war on poverty to order an investigation of the Pulaski County Economic Opportunity Agency.

Dr. Jerry D. Jewell, president of the Little Rock branch of the National Association for the Advancement of Colored People, and L. C. Bates, state field representative for the NAACP, said they had asked Sargent Shriver to order the investigation, "including auditing of books," dating from the EOA's incorporation.

Jewell said he, Bates and four or five others had signed the v-tor to Shriver, but he identified the others.

"We feel that your office would want to avail itself of information on existing problems. We further believe that you champion the intent of the program which is to reach the masses," the letter said.

Victor Ray, director of the EOA, said he had no idea what the letter's specific complaint is and that he would welcome an investigation and audit.

The Labor Department said wholesale food prices rose 1.3 per cent in August. Retail figures for August will be announced later this month and are expected also to show some increase.

The wholesale price index, which includes industrial materials and goods as well as farm products and processed foods, rose four-tenths of 1 per cent in August, the department said.

Also on the inflation front, Republican members of the House Ways and Means Committee challenged administration claims of a "first slice" \$1.5-billion budget cut as part of Johnson's anti-inflation program.

Spokesmen for business and trade associations appear before the Ways and Means Committee today and are expected to oppose, or seek exceptions from, Johnson's plan to suspend for 16 months the 7 per cent tax credit businesses receive for equipment and plant outlays and the tax-advantageous accelerated depreciation allowance.

The administration opposes exempting any segment of the business community from Johnson's proposals.

## Cong Strikes Near Saigon, GI Captured

By ROBERT TUCKMAN  
SAIGON, South Viet Nam (AP) — In a daring pre-dawn raid, a Viet Cong demolition squad stormed into a military motor pool near Saigon today, captured an American soldier, killed four Vietnamese militiamen and blew up 52 trucks.

U.S. officials estimated damage at \$1 million. They said the Communist guerrillas escaped without losing a man.

In the air, U.S. bombers struck at a North Vietnamese missile complex for the seventh day in a row Tuesday.

On the ground, allied forces launched their biggest helicopter assault of the war in a new offensive in the coastal valleys of central Viet Nam.

One of their first catches was a 13-member Communist entertainment troupe from Hanoi. They also captured three nurses at a Viet Cong hospital.

In another early action, the cavalrymen killed 15 enemy and captured 16 more while sustaining light casualties.

U.S. Army officers said the Viet Cong blasted a huge hole in the barbed-wire fence surrounding the motor pool on the outskirts of Saigon and charged through with guns blazing. A platoon of Vietnamese militiamen on guard pulled out during the initial onslaught. Several militiamen were wounded.

The captured U.S. serviceman was not identified. Officers said the installation's administrative building was destroyed.

The U.S. command also reported that American bombers destroyed one missile when they hit a North Vietnamese missile complex 30 miles northeast of Dong Hoi for the seventh time. That brought to five the number of Soviet-made missiles blown up since Saturday. The site had been a threat to American bombing missions over North Viet Nam.

American planes flew 150 missions over the North Tuesday. Two American planes went down, raising the number of planes lost over the north to 368.

## GOPs Aim at \$4.7 Billion Budget Cut

WASHINGTON (AP) — Republicans are working on a budget aimed at showing that President Johnson can cut federal spending by \$4.7 billion instead of the \$3 billion he proposed in his anti-inflation program.

Senate Republican Leader Everett M. Dirksen disclosed this Tuesday, forecasting the Republican Policy Coordinating Committee will lay down a detailed budget at an Oct. 3 meeting. At about the same time, the government issued a report indicating housewives are having a tougher time stretching their dollars at the supermarket.

The Labor Department said wholesale food prices rose 1.3 per cent in August. Retail figures for August will be announced later this month and are expected also to show some increase.

The wholesale price index, which includes industrial materials and goods as well as farm products and processed foods, rose four-tenths of 1 per cent in August, the department said.

Also on the inflation front, Republican members of the House Ways and Means Committee challenged administration claims of a "first slice" \$1.5-billion budget cut as part of Johnson's anti-inflation program.

Spokesmen for business and trade associations appear before the Ways and Means Committee today and are expected to oppose, or seek exceptions from, Johnson's plan to suspend for 16 months the 7 per cent tax credit businesses receive for equipment and plant outlays and the tax-advantageous accelerated depreciation allowance.

The administration opposes exempting any segment of the business community from Johnson's proposals.
